D.O. No.1/15/2009-M.II
Dated 07.07.2010

Dear

Please refer this Ministry's letter of even number dated 11.5.2010 wherein Ministry has conveyed approval given by DOPT to one time relaxation in the eligibility criteria for promotion to the post of DDG(Geology) from amongst the eligible feeder grade officers on the basis of the revised eligibility service provided in the proposed recruitment rules as one time measure. Accordingly, DPC proposal for filling up all 21 vacant posts was required to be sent.

2. GSI after a lapse of nearly two months vide letter dated 28.6.2010 (copy attached) forwarded revised DPC proposal for promotion to the post of DDG(Geology) in GSI for the year 2010-11. After going through the proposal it is found that the eligibility list attached in the proposal is not correct as it contains names of only 5 officers out of which one officer has already retired. Further vigilance clearance has also not been enclosed. Proposal without vigilance clearance cannot be worked upon.

3. It thus appears that GSI has not taken into consideration the relaxation given by DOPT in the eligibility service vide letter dated 30.4.2010.

5. As per the practice the DPC for the grade of DDG of all the streams are taken up together by UPSC. Therefore delay in sending this proposal has derailed the overall promotion scenario in GSI adversely affecting the function of GSI.

6. You are therefore requested to expedite the matter and call for the explanation of the concerned officer for delay in the matter. You are also requested to furnish requisite information as sought by UPSC vide letter No.F.1/63(1)/2010-AP.IV dated 10.5.2010 (copy enclosed).

7. Further it was discussed by Special Secretary with DDG(P) today, a complete proposal may be brought by you personally on 8th July 2010 alongwith vigilance clearance and ACR completion certificates.

Yours sincerely,

Sd/-
